

## COMMUNICATION &amp; CONFERENCING

## UNITE Wireless Communication Systems

Modelo	Descripción
<b>Unite RP (EU)</b>	Digital bodypack receiver, Europe version 1880 - 1900 MHz, with OLED-display, stereo mini-jack, USB-C, int. Li-Ion battery, incl. belt clip and strap
<b>Unite RP-T (EU)</b>	Digital bodypack receiver, Europe version 1880 - 1900 MHz, with talkback, OLED-display, int. microphone, stereo mini-jack (headset), USB-C, int. Li-Ion battery, incl. belt clip and strap
<b>Unite TP (EU)</b>	Digital bodypack transmitter, Europe version 1880 - 1900 MHz, with OLED-display, int. microphone, mute button, stereo mini-jack (headset), mini-XLR, Bluetooth, line-in mini-jack, USB-C, int. Li-Ion battery, incl. belt clip and strap
<b>Unite TH (EU)</b>	Digital handheld transmitter, Europe version 1880 - 1900 MHz, with electret condenser capsule, OLED-display, mute button, bluetooth, USB-C, int. Li-Ion battery
<b>Unite AP4 (EU)</b>	Digital 4 channel access point transceiver, Europe version 1880 - 1900 MHz, with integrated antennas, ethernet port, USB-C, Dante interface (PoE), 4 analog in- and outputs, integrated wall and stand mount, incl. power supply

## Charging Components

Modelo	Descripción
<b>Unite CC-28/2</b>	Cockpit charging & carrying case for up to 28 Unite pocket transmitters/receivers. 2 of the 28 charging bays are compatible with the Unite handheld transmitter (TH). incl. USB and ethernet port, int. power supply
<b>Unite CC-36P</b>	Cockpit Charging & carrying case for up to 36 Unite pocket transmitters/receivers, USB and ethernet port and int. power supply
<b>Unite CC-36/2</b>	Cockpit charging & carrying case for up to 36 Unite pocket transmitters/receivers. 2 of the 36 charging bays, are compatible with the Unite handheld transmitter (TH) USB and ethernet port, int. power supply
<b>Unite CR-12P</b>	Cockpit Charging unit for up to 12 Unite pocket transmitters/receivers, ethernet port, int. power supply, 2U, 19" mount
<b>Unite 4P2H Retrofit Kit</b>	For up to 4 Unite bodypack transmitters/receivers. 2 of the 4 charging bays are compatible with the Unite handheld (TH). Compatible with Unite CC-24P (718610) and CC-36P (718343). Contains module, PCBA, instructions. Attention: includes electrical components. Only for trained service technicians.
<b>Unite CDS-4/2</b>	Cockpit Desktop charger for up to 4 Unite pocket transmitters/receivers. 2 of the 4 charging bays are compatible with the Unite handheld transmitter (TH). Ethernet port, USB-C, incl. power supply
<b>Unite CDD-8/4</b>	Cockpit Desktop charger for up to 8 Unite pocket transmitters/receivers. 4 of the 8 charging bays are compatible with the Unite handheld transmitter (TH). Ethernet port, USB-C, incl. power supply
<b>Unite DS-4/2</b>	Desktop charger for up to 4 Unite pocket transmitters/ receivers. 2 of the 4 charging bays are compatible with the Unite handheld transmitter (TH). USB-C, incl. power supply (Basic version without network function)

## Charging Components

Modelo	Descripción
<b>TG H34 (TG)</b>	Condenser neckworn microphone (supercardioid), black, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>TG H56 (TG)</b>	Mini condenser neckworn microphone (omnidirectional), black, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>TG H56 tan (TG)</b>	Mini condenser neckworn microphone (omnidirectional), beige, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>TG H57 tan (TG)</b>	Mini condenser earhook microphone (omnidirectional), beige, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>TG L58 tan (TG)</b>	Mini condenser lavalier microphone (omnidirectional), beige, 6 mm capsule diameter, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>TG L58 (TG)</b>	Mini condenser lavalier microphone (omnidirectional), black, 6 mm capsule diameter, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>Classis GM 301 Unite</b>	Miniature condenser gooseneck mic (supercardioid), black, 4-pin mini-XLR connector with TG pin out, for operation with Unite /TG 500 / TG 1000 pocket transmitters, windscreens WS 300 B included
<b>HSP 321</b>	Single-ear headset, with electret condenser microphone, pivoting mic boom, 0.9m cable with 3.5mm mini jack (4-pin)
<b>DT 287 UNITE 80 Ω</b>	Single-ear headset, with condenser microphone (cardioid) for direct powered devices, with pivoting mic boom, 7-pin connector incl. connecting cord with 4-pin 3,5mm jack plug
<b>DT 1</b>	Single-ear headphone, 32 ohms, with cable 0.9 m (3 ft.) and golden 3.5 mm mini stereo jack
<b>DT 2 2 x 32 Ω</b>	Headphones, 2 x 32 ohms, with cable 0.8 m (2.6 ft.), stereo mini-jack, for tour guide systems
<b>IL 200</b>	Personal induction loop with 0.2 m cable length, 3.5 mm stereo jack and extension cord 0.77 m In conjunction with beyerdynamic devices conforms with the EN 60118-4 for inductive hearing aid loop

## Microphones &amp; Headphones

Modelo	Descripción
<b>TG H34 (TG)</b>	Condenser neckworn microphone (supercardioid), black, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>TG H56 (TG)</b>	Mini condenser neckworn microphone (omnidirectional), black, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>TG H56 tan (TG)</b>	Mini condenser neckworn microphone (omnidirectional), beige, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>TG H57 tan (TG)</b>	Mini condenser earhook microphone (omnidirectional), beige, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>TG L58 tan (TG)</b>	Mini condenser lavalier microphone (omnidirectional), beige, 6 mm capsule diameter, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>TG L58 (TG)</b>	Mini condenser lavalier microphone (omnidirectional), black, 6 mm capsule diameter, with 4-pin mini-XLR connector, for all current beyerdynamic TG pocket transmitters and MA-PVA, incl. wind shield
<b>Classis GM 301 Unite</b>	Miniature condenser gooseneck mic (supercardioid), black, 4-pin mini-XLR connector with TG pin out, for operation with Unite /TG 500 / TG 1000 pocket transmitters, windscreen WS 300 B included
<b>HSP 321</b>	Single-ear headset, with electret condenser microphone, pivoting mic boom, 0.9m cable with 3.5mm mini jack (4-pin)
<b>DT 287 UNITE 80 Ω</b>	Single-ear headset, with condenser microphone (cardioid) for direct powered devices, with pivoting mic boom, 7-pin connector incl. connecting cord with 4-pin 3,5mm jack plug
<b>DT 1</b>	Single-ear headphone, 32 ohms, with cable 0.9 m (3 ft.) and golden 3.5 mm mini stereo jack
<b>DT 2 2 x 32 Ω</b>	Headphones, 2 x 32 ohms, with cable 0.8 m (2.6 ft.), stereo mini-jack, for tour guide systems
<b>IL 200</b>	Personal induction loop with 0.2 m cable length, 3.5 mm stereo jack and extension cord 0.77 m In conjunction with beyerdynamic devices conforms with the EN 60118-4 for inductive hearing aid loop

## Accessories Unite

Modelo	Descripción
<b>Unite CC Bag</b>	Accessories bag for the Unite CC charging & carrying cases, for storage of cables, headphones and other accessories
<b>Unite Softcase</b>	Storage case fits for 3 Unite bodypack transmitters/ receivers, 1 Unite handheld transmitter and further accessories
<b>K 287.Unite</b>	Connecting cable for DT 287 UNITE with 4-pin 3,5mm mini-jack (CTIA pinout)
<b>Power supply unit BA Unite PSU 5/2</b>	5V / 2A USB-C power supply 100-230V 50/60 Hz for portable Unite devices TH, TP, RP, RP-T, cable length 50cm incl. multi-country adapter: EU, US, UK, AUS
